

REMARKS

This paper is in response to the Office Action mailed May 17, 2006. By this paper, claims 12 and 14-16 are amended and claim 21 is cancelled without prejudice. Accordingly, claims 12-16 are pending upon entry of this amendment.

The Examiner has indicated that the reissue oath/declaration filed with this application is defective. Enclosed is a copy of an oath/declaration originally submitted on June 18, 2003 in response to a Notice to File Missing Parts of a Reissue Application together with a copy of the certificate of mailing. It does not appear that this oath/declaration was entered into the current file and Applicant believes that this oath/declaration corrects the deficiencies noted by the Examiner. Applicant submits that this oath/declaration is proper because the parent application has issued as RE37,728 and this continuation application was filed to continue the prosecution of claims 12-16 of the original patent which were rejected during the prosecution of the parent application. This continuation application does not have any new claims nor was it filed to correct a defect different than its parent application.

Amendments to Claims 12 and 16

Claims 12 and 16 have been amended to reflect amendments made to the corresponding claims in the parent application and additionally to clarify the subject matter which Applicant regards as the invention.

Conclusion

In view of the amendments and remarks made herein, Applicant submits that the claims presented herein are patentably distinguishable from the art applied and prompt allowance of the application is respectfully requested.

Should the Examiner determine that anything else is desirable to place this application in even better form for allowance, the Examiner is respectfully requested to contact the undersigned by telephone.

Respectfully Submitted,
